

## May 2023: Memorial Day Shipping Schedule

Please be advised that FedEx and UPS will not deliver specimens to Boston Heart on Monday, May 29<sup>th</sup> in observance of Memorial Day. It is imperative that all specimens collected on Friday, May 26<sup>th</sup> are shipped on Friday for Saturday delivery. To help ensure specimen stability in the event of a delayed shipment, we recommend filling excess space in coolers with extra ice packs. FedEx and UPS do not deliver to the lab on Sundays.
