How does it work?

Your Healthcare provider orders the test

The test kit is delivered to the office or your home.

Take the test at home or at your doctor's office

The blood collection card is sent to the lab in a prepaid mailer.

Pay for your test by credit card

Easy and secure payment.

Get accurate results

Receive test results through the secure portal in just a few days.

How do I collect the sample?

We provide a kit with everything you need to prick your finger to place drops of blood on a card that is mailed back to our lab for analysis.
